# Closed-loop connections between the digital and real worlds across the value chain enable actionable insights and informed decisions

# Siemens Xcelerator brings the comprehensive digital twin to life

# Siemens Digital Industries Software (DI SW)

## Software and products

### NX

Mechanical design for product development

### Solid Edge

Engineering software for mainstream

### Simcenter

Multidisciplinary simulation and testing

### Insights Hub

IoT as a Service solutions

### Mendix

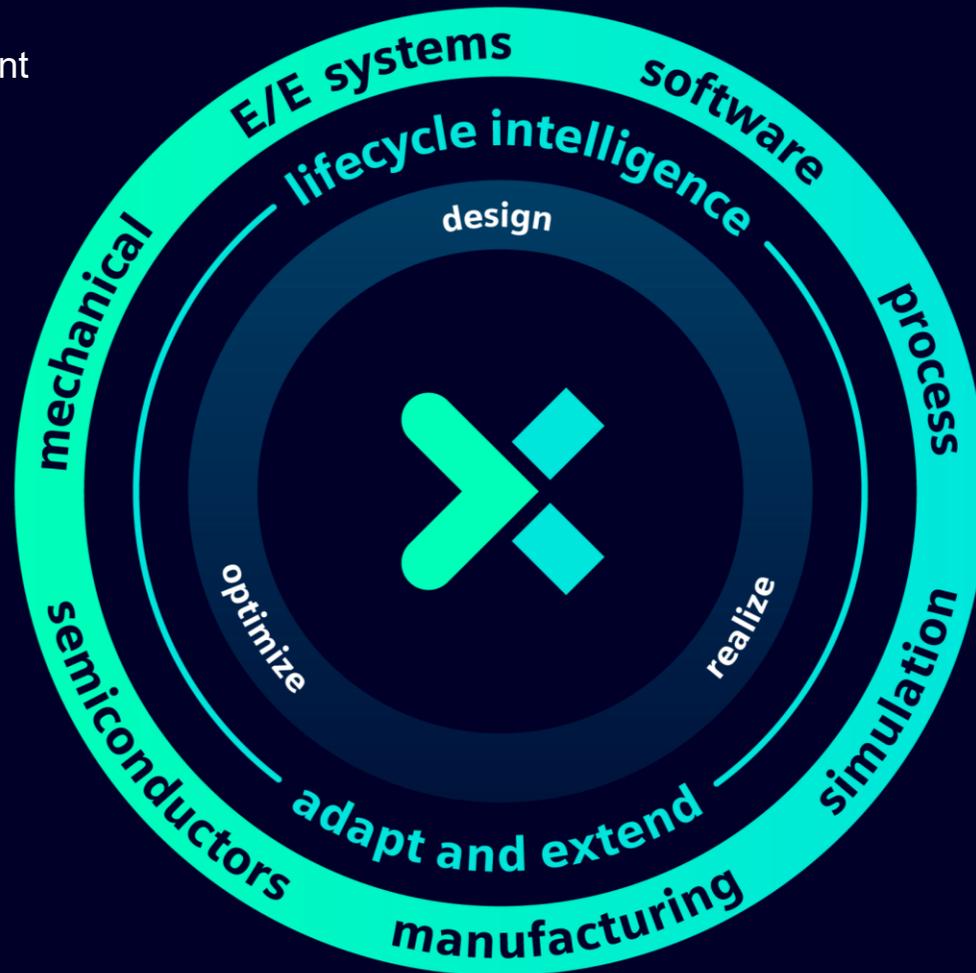

Low-code application development

### Capital

E/E systems development

### Opcenter, Tecnomatix, NX CAM

Manufacturing operations management

### Supplyframe

Supply chain management

### Teamcenter, Polarion

Product lifecycle management

### Valor, HyperLynx

Electronics systems verification

### Xpedition, PADs

Electronic systems design

### Calibre, Aprisa, Catapult, Tanner

Integrated circuit design

### Tessent, Questa, Veloce, Analog FastSPICE, Symphony, mPower, Power Pro

Integrated circuit verification

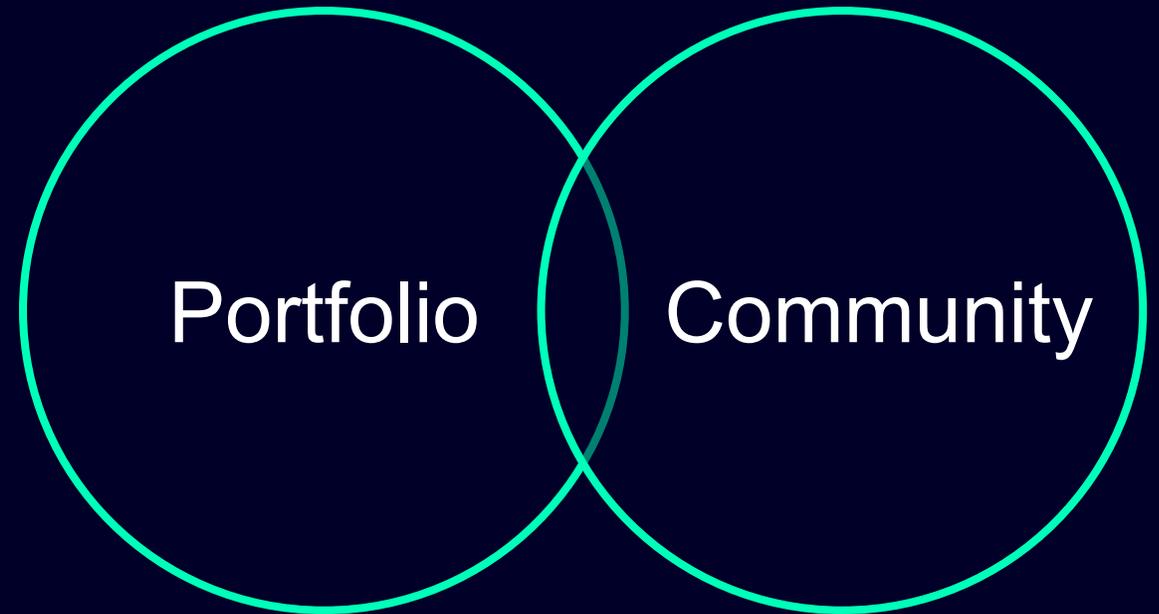

Software is an integral part of

# Siemens Xcelerator

to make digital transformation easy, fast and at scale

**Siemens Xcelerator  
as a Service**  
makes digital  
transformation initiatives  
accessible, flexible, scalable.

# Siemens Digital Industries Software Turkey

The indirect software business is Turkey with Partners

10 Partners to drive the business in Turkey

2024 & 2025

CDT 2024 & 2025 Awards

- Most Updated Person
- Biggest Growth
- Platinum Partner

Sales, Presales and Portfolio development support for partners and customers to accelerate Digital Transformation

Strong Industry and Portfolio Focus

# Thank You
